It is getting time to shove off odds and ends, the Summer season being pretty well advanced, some popular lines of goods have had a good run, on account of which they have been ordered over and over again, these particular lines we are now very anxious to sell, and in order to make them go, we made such reductions as will sell them even though the customer should not have any particular use for them, the smallest cut we are making this week, is 25 per cent. on former prices. Now we will start out on Embroideries.

Embroideries! Embroideries!!

Hamburg Edgings, nice qualities 3-1-2c

Hamburg Edging 6-1-2c
Hamburg Edging 7c, and all the way up to 50c. per yd., of course we have cheaper lines of Embroideries, but the line named above is of the very best quality and not an undesirable pattern in the lot, they are worth 25 per cent. more than the price we are selling them for.

Our white piques are selling down, they are the greatest bargain ever sold in this market. We are selling them at 8 1-2c. per yd. We have a big lot of India lawns left which we have reduced in prices until there is no bottom on it. Our colored Victoria lawns have been reduced to 16 3-4c. per yd.; they went like hot cakes all this summer at 25c.

OHIO KICKERS.

They Think Cleveland is too Slow in Turning the Rascals Out.

After Some Severe Criticisms, They Endorse the Democratic Administration.

The New South Forges Ahead at the Southern Exposition at Louisville, Ky.

The Cholera Sweeps on Across Spain and is Besieging Gibraltar—57,000 Deaths.

AN OHIO KICKER.

President Cleveland's Conduct Criticized.

CLEVELAND, O., August 15.—The democrats of Cuyahoga county met this morning to select delegates to the state convention. The committee on resolutions were out for an hour and a half. Several of the members wanted to condemn President Cleveland's administration, others were anxious to return a mild endorsement, while others were non-committal. Extracts from the committee's report are as follows:

Resolved: That the democratic party, having been in possession of the government ever since March last and a large number of officers are yet held by office, the republicans should be satisfied with the demand that our senator and representative do hasten the removal of all republicans in office and that efficient democrats be placed in their positions. The administration was then endorsed, mildly.

THE NEW SOUTH.

It Shows up Grandly at the Southern Exposition.

LOUISVILLE, Ky., August 15.—The Southern Exposition was opened today with elaborate ceremonies. Excursion trains ran from all directions and crowds came on all trains during the day. At noon, Governor Knott presided at the opening of the exposition. The displays excelled in number and variety those of any previous season. The art gallery contains the principal pictures of the recent prize exhibition in New York, and is pronounced a most interesting collection. At 2 o'clock the governor of Kentucky, mayor of Louisville and Hon. John Young Brown were received in Music Hall by the directors of the exhibition and an audience of 6,000 people. Governor Knott delivered a short but eloquent address, in which he compared the triumphs of peace to those of war, and spoke of the harmony and hopefulness of the industrial progress of the southern people. The Danaborch orchestra gave two concerts to delighted audiences. Danaborch will give two more concerts several weeks and will be succeeded by Cappa's military band. To-night the buildings are illuminated by electricity and Chinese lanterns, and the crowd is estimated at about 20,000.

The business houses were elaborately decorated, and the day has been observed as a holiday. Visitors from a distance bring the most encouraging reports from the south concerning the business outlook, and Louisville merchants believe they have to-day inaugurated the most successful commercial season in its history.

CHOLERA'S LASH.

It Seizes Spain Terribly.

MADRID, August 15.—In Granada the condition is terrible. Many doctors are dying, and whole streets are infected with the scourge by which entire families have been carried away. The total number of deaths in the infected provinces since the first outbreak of the epidemic is 7,000 and it is estimated that 60,000 persons have fled from the kingdom. The Gazette says that during the past 24 hours 5,000 new cases of cholera and 1,350 deaths were reported throughout all Spain. During that period forty-seven new cases and eighteen deaths were reported in this city. The aspect of affairs is becoming more serious here, the epidemic having appeared in the founding hospital and other public establishments, in the best quarters of the city. There were 4819 new cases of cholera and 1840 deaths "reported" yesterday throughout Spain.

The French way is right.

PARIS, August 15.—Very stringent measures are being taken to keep the cholera away from the city. Travelers from the south are quarantined and the streets are cleaned every night.

The Death Rate at Marseilles. The National, which was the first journal to announce the appearance of cholera at Marseilles, insists that the number of deaths that have occurred there from the disease is still much underrated.

Cholera at Gibraltar.

GIBRALTAR, August 15.—The existence of cholera within the Spanish lines was officially declared to-day and the disease is spreading. There were four deaths here to-day. A delegation waited on the governor of Gibraltar to-day and requested him to shut off communication with Spain, but this he refused to do. The panic increased hourly and the exodus grows correspondingly. The population is greatly distressed over the conduct of the military authorities in refusing to adopt the necessary precautions against the introduction of cholera from Spain.

IRISH NATIONAL LEAGUE.

The Land League's Successor Issues a Ringing Address.

CHICAGO, August 15.—The national league is the successor of the land league. A session of the executive committee of the national league commenced at 10 o'clock, all the members being present except Flaherty of Boston. Senator Kiddleberger did not arrive this morning as he was expected to be in the city. The committee was to meet him at the Baltimore and Ohio depot where he was coming. The train on which he was coming was delayed at its date of departure. The national committee of the league, composed of one member from each state, went into session at 11:30 o'clock. The chief purpose of the meeting of this committee was to determine where the next National convention shall be held. Senator Kiddleberger, of Virginia, who is to address the league at the convention, arrived unexpectedly. He was discovered at the Grand Pacific and taken in charge by Alexander Sullivan and General Kerwin. At 2:45 the committee adjourned until 7 o'clock. It has been learned however that the national convention will probably be held in Chicago. A message from Parnell was read in which he advised the conference to fix a date for holding the next national convention to occur after the English elections.

THE ADDRESS.

The following is the address formulated and adopted this afternoon at the meeting of the league:

"In obedience to the suggestion of the chosen leader of Ireland, the national committee of the Irish National League of America, assembled at Chicago, on the 15th inst., to hold the next national convention of the league in the United States, has decided to postpone the date of meeting until the autumn of 1886, and to designate a time and place for holding the general election of the league, and to all friends of self-government in Ireland, that it would be impossible either for Mr. Parnell to attend the meeting of this committee or to send any of his able associates to represent the league at the convention, pending the general election of the league, which will probably occur next November, the wisdom of his suggestion, that the convention be postponed. Meanwhile, however, leaders should inaugurate a period of activity not less earnest and energetic than that which prevailed when Ireland was threatened with the loss of her independence, and when her leaders were imprisoned and her press silenced under a so-called liberal government.

The party led by Parnell needs support. How well have they not deserved, we need hardly tell to the world, and assuredly we need not tell men of Irish birth or descent. Serving without compensation, without official patronage, among aliens who have persecuted and who have sought to degrade them, and being, numerically, less than one-twentieth of the body in which they have worked, they have achieved a success unparalleled in the history of struggles for free government. By their ability, their unity, their discipline, their faith in the justice of their cause, and their restlessness, they have forced us to listen to the ravings of an outraged nation, without official patronage, among aliens who have persecuted and who have sought to degrade them, and being, numerically, less than one-twentieth of the body in which they have worked, they have achieved a success unparalleled in the history of struggles for free government. Sanitary Movement.

Neither mental nor physical labor can be accomplished satisfactorily unless the system is in order. When you feel tired, languid, nervous, or out of action, the mind slow to act, and requiring great mental effort, you can rest assured that your liver is not acting properly, and that nature requires assistance to help throw off impurities. There is no remedy that will accomplish this so mildly and yet effectually as Prickly Heat Bitters. A trial will satisfy you of its merits.

A Memorial.

Messrs. W. A. Williamson & Co. have removed their drug store to the building on the corner of Austin and Fourth streets, the building formerly occupied by W. H. Watkins. The next door to their old stand. Their customers and the public generally are invited to call and see the new and elegant fixtures, which are being put in position. They are determined to do the heaviest retail drug and prescription business of the city and have therefore secured the most convenient location possible.

Sweet are the uses of adversity, the printer's copy said, but he set it up, sweet are the uses of adversity. Sweet, indeed, to those who are sweet and suffering have seen the advertisement of some sovereign remedy from death's door. "The best thing I ever saw in my paper was the advertisement of Dr. Pierce's Golden Medical Discovery" is again and again the testimony of those who have been healed by it of lung disease, bronchial affections, tumors, ulcers, liver complaints and the like to which death is heir.

OUR CABLE LETTER.

News and Gossip From Countries Across the Sea.

LONDON, August 15.—The holiday pause in legislation is to be much shorter than usual, as the houses were prorogued until October 31st, only Prime Minister Salisbury will not tarry long at Hatfield. He has arranged to go next week to Ceilichet at Dieppe, France. He will return to London on the 7th of September, assemble the cabinet and open the tory campaign. The only new phase in home politics which has developed during the past week is the activity of agitation in favor of the disestablishment. Mr. Jesse Collings, radical member of parliament for Ipswich, Mr. Henry Labouchere, Mr. Richard Dimsdale and other radicals, make disestablishment the plank in their platform, and insist that the church funds should be applied for educational purposes. The campaign is already exciting and the deputies who are seeking reelection are all on the stump already.

THE FRENCH ELECTIONS.

The issue of the French election becomes daily more difficult to forecast. The political situation in that republic is much the same as it is in England, party lines are largely drawn, parties are badly mixed and no one can tell which side will be the stronger when the rearmament is completed. The French radicals have ever seemed to have increased their confidence since M. Clemenceau began his stuporful tour. His post-audience policy is still the same, and among the peasants there is that of M. Ferry, of proposed national expenditure and colonial expansion. It may be said with truth that whatever changes may occur in the relative strength of the parties it is certain that the French elections will result in the return of a very different parliament from that which now controls the executive of the country. At least four-fifths of the chamber of deputies will be composed of entirely new men.

MR. STANLEY'S REVAL.

M. De Brazza, Stanley's rival in Africa, will soon return to France. He will be splendidly recognized by the government for his work in central Africa, and will be made an officer of the Legion of Honor. Congo land will be embodied in the government and he will be given a sort of general charge of the French colonial interests in Africa by special appointment.

MATTERS IN AFGHAN.

The Indian government has decided to permanently increase the number of British and Indian troops in the Afghan frontier to 10,000 men, and to construct a telegraph line to Kabul, the capital of the ameer's dominions. The work on the telegraph line is already in progress. Abdurrahman, the ameer, has expressed a wish to have the line end at Candahar, and has refused to guarantee to maintain it in safety beyond that point. General McDougall and Major Nicholson have left Simla, India, to form an entrenched camp in the Pishan Valley and construct a military road to the banks of the Helmand river.

DILKE'S DILEMMA.

Sir Charles Dilke's friends believe that a settlement out of court will be effected in the divorce suit brought by Mr. Crawford against his wife, with Sir Charles as co-respondent. If the case will be conducted in a way so as to avoid scandal or gossip as possible, Mr. Crawford himself desires to avoid making exposures and wishes merely to obtain a divorce. Very strong social and political influences are being brought to bear upon him to induce him to be contented with a simple separation and to allow the case to be postponed indefinitely, or for at least six months, in order to give time for a subsidence of the passionate family quarrel which the scandal has provoked.

TROOP OF SOCIAL STENCH.

The continuance of the agitation against the more disreputable forms of London vice as revealed by the Fall Mall Gazette, is wearying and disgusting people and is beginning to work with condemnation. The conservative press is commencing to decry the business and a number of established Church organs are following suit. The bishops of York and Canterbury, and other leaders of religious thought, are warning in their support of the agitation with all their might and are endeavoring to enlist popular sympathy by means of great demonstrations. All the influence possessed by dissenting religious organizations seemed to be at present in use to make the Hyde Park meeting a monster success. The council list for this meeting includes Prof. Newman, the Right Reverend James Stansfeld, President Roberts, of the Wesleyan conference; ex-President Griffith, of the Wesleyan conference; M. Michael Davitt, Canon Wilberforce and French and many other clerical discussing notable.

VIGILANCE COMMITTEES.

In Liverpool, Manchester and other large cities of England, vigilance committees are being formed for the purpose of obtaining local legislation for the suppression of opium. Mrs. Fawcett, widow of Professor Fawcett, is strongly in favor of continuing the agitation. Replying to certain criticisms on her conduct, she said, "I am not a woman of great energy, but I am a woman of great conscience and 'increased severity' in the sentences for crimes against children, which will tend to save young men and women from 'walking in vice'."

ARISTOCRATIC "SHADOWS."

The purification society has encountered much opposition in its work of putting "shadows" on public men. Its numerous agents who have been engaged in the work of acting as detectives against public men, have been warned by the authorities to refrain from making disclosures of themselves and the police have been ordered to prevent these spies from annoying members of parliament, many of whom have complained of the pestering trouble.

ROYAL SPARKING.

The court journal denies that Princess Louise of Wales is betrothed to a brother of the Duchess of Connaught, and mentions the son of the King of Sweden as a suitor for the hand of the princess.

SARA, THE SLIM.

Sara Bernhardt has become reconciled to her last husband, M. Danial and is now negotiating for an American engagement. Angio, the former lover of Bernhardt, and who accompanied her on her last American tour has married a French heiress.

LYDIA, THE AGED.

Lydia Thompson will take with her to New York a new business company. Her American tour will begin next January.

NOTABLES COMING.

The steamship Parisian, which sails next Thursday, will take as passengers, President Stephens, of the Canadian Pacific Railway company, Hon. Mr. Donald Smith, the Hon. Mr. Henry Stafford Northcote and Director Maynard of the Canada Land Commission, and the Hon. Minister Smith and Director Scorth of the Canada Land company.

GREAT BRITAIN.

A Lull Before the Storm.

LONDON, August 15.—There is a dead lull in British politics at present, as most of the ministers and leading politicians are enjoying themselves in the country. The Marquis of Salisbury has gone to Hatfield to enjoy his vacation. Lord Randolph Churchill is visiting the Duke of Marlborough at Blenheim castle. The Duke has definitely abandoned the liberals and joined the tories. Lord Iddlesleigh has gone to Rome, near Kestley. The Duke of Richmond and Gordon, the secretary of state for Scotland, has retired to his castle on the Shirey. Of the liberals, Sir William Vernon Harcourt, home secretary under Lord Gladstone, is rusticating at his country house at Wimborne. Charles Dilke has retired to his villa in the south of France. Mr. Joseph Chamberlain is preparing for his Irish tour.

Justice Coleridge, Married.

LONDON, August 15.—Lord Chief Justice Coleridge was married this afternoon to an American lady named Amy Augusta Jackson Lawford. The wedding ceremonies were conducted privately and a special license was granted August 14th, so that the marriage could take place at any time of day the parties wished.

A Change in the Wind.

LONDON, August 15.—The latest news gives a more favorable aspect to the Afghan frontier, and indicates a settlement of the question involved.

Now We Can Sleep.

LONDON, August 15.—Mr. Stanhope has been appointed to the board of trade with a seat in the cabinet.

Smooths Everything Over.

LONDON, August 15.—The Standard thinks the queen's speech smooths everything over regardless of facts.

GERMANY.

BERLIN, August 15.—It is stated that the Zanzibar settlement is due to a secret agreement between England and Germany.

They Sustain the Seal.

BERLIN, August 15.—Germany has occupied one or two of the Caroline islands, which Spain has not exercised authority in order to obtain labor for New Guinea. German newspapers approve the step and think it ought not to raise any difficulty with Spain.
